AirFest 2009 Inks Corporate Sponsorship Deal With Local Business

Rockford, IL – The Chicago Rockford International Airport (RFD) announced today that it has reached an agreement with Clinton Electronics of Loves Park, Illinois to be a corporate sponsor of AirFest 2009. This will mark the second consecutive year that Clinton Electronics has partnered with RFD to put on AirFest.

About Clinton Electronics: Clinton Electronics has come a long way since 1963 when it began operations in Loves Park, Illinois building black and white television picture tubes for well known industry giants such as RCA, GE, Admiral, Westinghouse, and many more. In the late 60's and early 70's, Clinton Electronics positioned itself to take full advantage of the ever-growing mainframe and personal computer industries by providing quality products to companies such as Apple, IBM, HP, DEC, and others. By the end of the 70's Clinton had grown to be a worldwide leader in the monochrome CRT industry with several facilities in Taiwan, New Jersey, as well as the company headquarters located in Illinois. While specialty CRT displays are still manufactured in the Illinois factory, Clinton is now fully invested in the CCTV industry. Clinton Electronics has been a major supplier to the CCTV industry for over 30 years through monitor and display production. In 2001, Clinton began selling to security dealers and integrators. Today, Clinton is focused more than ever on the security industry and offers a full line of security products. Now in the fourth generation, Clinton is growing yet again.
