

ADDENDUM NO. 1

REQUEST FOR PROPOSAL #10-10

PROPOSAL DESCRIPTION: IP Telephony Solutions

ADDENDUM ISSUE DATE: Wednesday, October 13, 2010

PROPOSAL OPENING DATE: Wednesday, November 3, 2010

PROPOSAL OPENING TIME: 10:00 AM

Please add paragraph 4.4 below to page 24 of the Request for Proposal #10-10 IP Telephony Solutions.

4.4 Other Information

The Authority is currently running one server 2003 R2 which is dedicated to the voice system. There are currently forty-five phones, expandable, located in three buildings. There are 100 lines but not all are currently being used. The Authority plans to remain with its current carrier. The network backbone is a combination of single mode fiber, multi mode fiber; CAT5 and CAT6 cable whereas Cisco managed POE switches are in play. The current internet service is bonded T1s. By mid November 2010 the Authority will be operating an internet service via an AT&T fiber solution (10 m/bps up / down, expandable). The current telephony head end is located in the Administration building. Any upgrade or replacement will require that the head end is relocated to the Terminal building.
